INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Further to Applicants' Duty of Disclosure pursuant to 37 C.F.R. §1.56, Applicants wish to bring to the Examiner's attention the material cited on the enclosed PTO-1449 form. Copies of the cited documents are enclosed.

Pursuant to 37 C.F.R. §1.98(a)(2)(ii), copies of the cited U.S. publications and/or patent documents have not been included.

The references cited in this Information Disclosure Statement were either identified in an International Search Report in the corresponding International Application, or a German Examination Report from the corresponding German priority application. Copies of both reports are enclosed. The references cited in the German

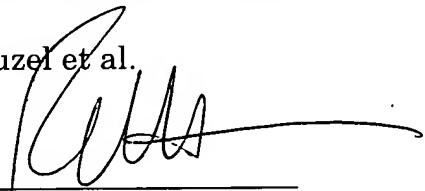

Examination Report are indicated as not preventing the patentability of the claims, and that a patent grant would be possible if certain formalities are addressed. The Examination Report states at page 2, second paragraph:

As further references to that already named by the applicant, (1) and (2) have been identified. The construction according to (1) shows a tilting possibility of the fastening flange with respect to the form work (see Fig. 17) and the construction of reference (2) shows an in-between piece (see Fig. 6, reference no. 8).

It is respectfully requested that the Examiner consider these documents and return an initialed copy of the PTO-1449 form indicating his consideration of the cited materials.

Respectfully submitted,

Jaruzel et al.
